

Tuesday 5 & Wednesday 6 February

Workshops online collaborative tools

Two days of workshops to share knowledge and practise collaborative tools adapted to the needs of culture professionals (cultural operators, artists)

European professionals will host thematic workshops based on the principles of peer-to-peer exchanges and action-training.

Organized as independent modules allowing "à la carte" registration, these workshops aim to share with participants the benefits of applied experimentations with digital tools during the European project CIRCollaborative Tools.

Free workshops upon registration, subjects to availability.

[Click here to access the registration form.](#)

- Demystify collaborative practices and defuse the digital with quirky warm-ups "Collaborative Anonymous"
- Discover online collaborative tools suited to my needs:
 - > manage workplaces
 - > organize events and artistic programming
 - > produce and circulate shows
 - > manage cooperation projects
 - > handle the following-up of subsidies
 - > facilitate the creation work
- Share about digital and collaborative practices in cultural and artistic professions
- Practise my professional English in a relaxed atmosphere
